## The FDET in a program on financial education on Onda Cero Lleida

Several professors from the Faculty of Law, Economics and Tourism of the University of Lleida participate this season in a section of the program La Ciutat Lleida of Onda Cero Lleida, led by the journalist Núria Mora.

It is a new section dedicated to financial education, a key aspect to understand how the financial system works, manage our money, plan and make responsible decisions. Every two weeks, several professors from the Faculty will present some concepts related to finance, such as saving, planning for the future and knowing our rights as consumers and users in the financial system.

The first of the sessions, on September 19, 2024, was given by Dr. Anna Garcia Companys, professor of the Department of Law and is available at the following link:
